About This Game

Y'all ready for this?

Hoops VR is specially designed for the HTC Vive so you can live out the ultimate basketball free-throw challenge. Use the motion controls and shoot hoops as naturally as you would out on the court in a real basketball game. Compete online for the top of the global leaderboards as well as locally against your friends. There are a handful of different modes covering a range of difficulties making Hoops VR fun whether you're a noob or total baller!

Features:

- Dynamic pop-up basketball hoops change location and keep the pace action-packed.
- Normal mode based on actual real-world dimensions of standard basketball and hoop.
- Easy mode with wider and closer basketball hoops keeps the game accessible for all.
- Bonus Paper-Airplane Mode!
- Bonus Garbage Mode!
- Fun graphics and beautiful sounds.

-
- Online and local Leaderboards to conquer.

Bump into things repeatedly until you randomly come across the exit. Thats it. I have nothing else to add to this review. Calling this a 'game' is being generous at best as there are no puzzles, no danger, no plot. Just bump into things until you find the door.

Ignore this thing.. Overall, an interesting puzzle RPG. The story is interesting and the puzzles are clever. Definitly worth a shot!. A spectre is haunting Europe — the spectre of communism. All the powers of old Europe have entered into a holy alliance to exorcise this spectre: Pope and Tsar, Metternich and Guizot, French Radicals and German police-spies.

Where is the party in opposition that has not been decried as communistic by its opponents in power? Where is the opposition that has not hurled back the branding reproach of communism, against the more advanced opposition parties, as well as against its reactionary adversaries?

Two things result from this fact:

I. Communism is already acknowledged by all European powers to be itself a power.

II. It is high time that Communists should openly, in the face of the whole world, publish their views, their aims, their tendencies, and meet this nursery tale of the Spectre of Communism with a manifesto of the party itself.

To this end, Communists of various nationalities have assembled in London and sketched the following manifesto, to be published in the English, French, German, Italian, Flemish and Danish languages.. Excellent idle game - fantastic graphics and music. A solid UI and good progress rate. Good loot system where you get some special benefit from scrapped loot (simple kill X unwanted loots for special bonus such as new stat point).

A little bit light on mechanics. Simple skill tree and not much exciting from resets. Considering how much is invested in the graphics I'm surprised there isn't some extra such as new skills to unlock, new characters, or crafting etc. to give people more depth.

Great value for money though, and very enjoyable. I would like to suggest the developers work on some additional mechanics and slowly increase the price of the game as more depth is added.. **RECOMMENDATION: YESSSSSS!!!!**

This game is an experience you need to experience yourself, there are no words then the deed you need to do! Buy the game, play it, experience it and you will see my point.

You will have a smile on your face from beginning till the end!

thanks valve your the best :)). In my opinion, this is quite a sluggish and uninspired game, not worth the time.. Aside from the nice graphics, and okay music there is one thing very impressive I took away from this game. It makes you reflect on what else you could have spent that \$2 on, and really makes you appreciate the value of a dollar.. This is an awesome game , in its day , if your looking for a single player game for a punt on then go for this..but be warned the multiplayer aspect no longer wxists, no players or servers.(Gameplay is a strong 8/10. ===[\u2764 Audience:]===

\u2610 Okay

\u2610 Great

\u2610 Fantastic

====[\u2726 Others:]====

Multiplayer: NO

Singleplayer: YES

Speedrunning: YES. i dont even know how to get to the actual modeling part. I thought I would be choosing a place to mine, taking soil samples, choosing the dimensions of my quarry and directing machinery. Instead it's menu clicking and watching numbers move. Not worth twenty bucks.. It was a real pleasure to play this game, thanks to handsome characters, relaxing music and interesting stories. Although I enjoyed playing The Men of Yoshiwara: Kikuya a bit more and that's why it was so great when sometimes I could meet those men here! It's such a pity that we have less heroes and stories in this game compared with Kikuya, I'd like to play more!

Thanks a lot for such an enjoyable experience!!!
